**Notice of Allowability** 

## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to disclose an apparatus comprising elements being configured as recited in claim.

Specifically, none of the prior art teaches or fairly suggests, among other things, the following limitations "n amplitude control units which are connected in parallel and each of which receives a pair of input clock signals to be supplied to a differential pair and receives m-bit digital control signals; and waveform shaping unit which is shared between the n amplitude control units is connected, in common, to the outputs of the n amplitude control units, wherein the respective pairs of clock signals supplied to the n amplitude control units are shifted in phase by about 1/n period" as required by claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to An T. Luu whose telephone number is 571-272-1746. The examiner can normally be reached on 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy P. Callahan can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
